Sir:

I, Allen C. Turner, an attorney registered to practice before the United States Patent & Trademark Office and attorney of record for this application, state that:

1. The enclosed paper copy of the substitute sheets of the SEQUENCE LISTING, as well as the enclosed copy of the substitute sheets of the SEQUENCE LISTING in computer readable form (CRF), are in compliance with the requirements of 37 C.F.R. §§ 1.821 through 1.824.

2. The enclosed copy of the substitute sheets of the SEQUENCE LISTING in computer readable form (CRF) is believed to be identical to the paper copy of the substitute sheets of the SEQUENCE LISTING.

3. The amendments, made in accordance with 37 C.F.R. § 825(a), included in the substitute sheets of the SEQUENCE LISTING are supported in the application as filed. Former SEQ ID NOS: 1-6 have been cancelled and replaced with substitute SEQ ID NOS:1-5 in response to the Raw Sequence Listing Error Report processed January 15, 2002. Also in response to the Error Report, descriptions explaining the location of generic nucleotide indicators have been added to former SEQ ID NOS:49 and 50 (now SEQ ID NOS:48 and 49). All sequences have been renumbered to reflect such amendments. The enclosed paper copy of the substitute SEQUENCE LISTING contains no new matter.

Respectfully submitted,

Allen C. Turner
